### **DETAILED ACTION**

1. This Office action is in answer to the responses filed on 5/29/2009. Claims 4-10 are pending, of which original claims 4, 6 were amended, claim 11 was cancelled by the amendment filed on 5/04/2009.

#### ***Response to Amendment***

2. Applicant's arguments in the Remarks filed 5/29/2009 have been fully considered and here is examiner's reply for the reasons discussed below.

- Applicant state on page 2 of the Remarks that

Initially, Applicants note that item 2 appears to be an error by the Examiner since no new claims were added in the Amendment filed May 4, 2009. Additionally, Applicants note that the amendments to claims 4 and 6 were made to correct clerical errors and for precision of language. As these claim amendments merely place the application in better condition for appeal, Applicants submit that such claim amendments do not require further consideration and/or search by the Examiner. Accordingly, Applicants respectfully request entry of the Amendment filed May 4, 2009 on appeal.

Applicant's above argument has been fully considered and found persuasive.

Therefore, the Applicant's amendment has been entered for further prosecution.

#### ***EXAMINER'S AMENDMENT***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sean M. Conner on 6/25/2009.

The application has been amended as follows:

Claim 4 has been amended to:

"4. (currently amended): An electric power converter comprising:

a main circuit unit comprising:

a converter unit configured to convert a first alternating current (AC) voltage into a direct current (DC) voltage;

a switching unit comprising a switching element configured to convert the DC voltage into a second AC voltage, wherein the second AC voltage has an a frequency value and a voltage value, and the second AC voltage is supplied to a load;

a first storage unit configured to store at least: characteristics of the main circuit unit, calibration values of a plurality of detectors, a production history, an operation history, and specifications of the main circuit unit; and

the plurality of detectors; and

a control unit comprising a second storage unit configured to prestore setup information, wherein the setup information includes a setting for driving the load, which includes an operating mode of the load or a setting for display,

wherein the control unit is configured to control the switching element to reach a desired on or off state based on: information concerning an operation of the load preset by the second storage unit, and information provided by the plurality of detectors,

wherein the main circuit unit and the control unit are detachably attached to each other such that the control unit can be replaced with another control unit which is of a different type than that of the control unit.”

***Allowable Subject Matter***

4. Claims 4-10 are allowable over the prior art of record.
5. The following is an examiner’s statement of reasons for allowance:

For claims 4-10: No prior art uncovered anticipates or renders obvious applicant(s) claimed the limitations of the electric power converter with the primary reason for the allowance of the claims is the inclusion of the limitations:

a first storage unit configured to store characteristics of the main circuit unit calibration values of detectors...; a control unit having a second storage unit to prestore setup information to control the switching element; the main circuit unit and the control unit are detachably attached to each other, the control unit can be replaced with another control unit which is of a different type than that of the control unit

in all the claims which is not found in the prior art reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
